In the case of multiple Author's, the question usually arises regarding the proper order of names. For the International Bridge Conference®, it is the presenting Author that is shown first. All other Co-Authors are arranged based on the following guidelines.

If both authors are from the same company the format is:

PRESENTING AUTHOR AND NEXT AUTHOR, Company, City, State

If both authors are from the same company, but different locations or both authors are from different companies, the format is:

PRESENTING AUTHOR, Company, City, State, and NEXT AUTHOR,

Company, City, State

For more than 2 authors, the same directions apply, simply placing all authors' information (when they are at the same location) together, then moving onto the next location.
